Dear Mr Richards

Thank you for your very detailed 2022 State Election Policy Priorities document and the opportunity to respond.

The concerns you have raised are eminently sensible, as are the important commitments you seek which aim for greater safety, further mutual recognition of skills and better skills training.

Hopefully I will be part of the new Parliament and that the new session will be able to consider the issues you raise very early in its agenda.

I look forward to working with you and supporting your industry in the future.

Yours sincerely

Frances Bedford
